

EmpowerMax Billing Service for Epitomax Customers

December 15, 2009 - PsyTech Solutions announces the creation of EmpowerMax Billing Service, LLC. EmpowerMax Billing Service, LLC is different because they offer billing services exclusively to Epitomax customers. Epitomax is a web-based EMR system for behavioral healthcare providers that features Scheduling, Billing, Accounts Receivable, ePrescribing, and an Electronic Medical Record.

Billing can be complex, and although Epitomax can be configured to handle the changing billing needs faced by behavioral healthcare provider organizations, making sure it is done correctly and timely can more than some providers want to tackle. EmpowerMax Billing Service, LLC was created to give Epitomax customers the option to focus on treatment, reduce expenses, and streamline their billing.

“Our staff are behavioral healthcare billing specialists, and we know how to configure Epitomax to get the maximum benefit from it. Since we only work with Epitomax customers, we know exactly how to use the system to get payment quickly and efficiently”, says Mike Kreamer, President of EmpowerMax Billing Service, LLC.

EmpowerMax Billing Service, LLC offers Basic, Standard, Premium, and Custom service plans. Epitomax customers can choose the plan the best fits them or request a custom service plan. The Premium Plan encompasses everything regarding billing and follow-up to allow providers to focus entirely on treating clients.

PsyTech Solutions has worked diligently on developing and improving Epitomax, the web-based software that compliments the everyday tasks of behavioral healthcare professionals. Earlier versions of Epitomax have revolutionized the manner in which healthcare professionals conduct business. With the advent of EmpowerMax Billing Service, LLC, providers have another option to increase their cash flow and reduce their expenses.
